

Utilinet™ underground warning mesh is an excellent warning device for underground buried services. This brightly coloured mesh has a middle strip that can be printed with a warning message for easy recognition on excavation.

- Mesh manufactured from virgin homopolymer polypropylene.
- Top tape is virgin grade, lead free, coloured and printed polyethylene which is laminated to the centre band of the mesh.
- Supplied with plastic side flanges for ease of installation.
- Various colours and text messages are available complying to Australian regulations.
